Summary.

Part of Bedford redevelopment and Bedford College group's commitment to becoming net zero, Vertec designed & supplied a high-grade thermal insulation, windows & cladding system that is aesthetically pleasing and inkeeping with the surrounding buildings.

Testimonial.

Justin Howard Construction & Quality Director Ashe Construction.

This is the first time Ashe Construction have worked with Vertec & it has been an enjoyable experience for the whole team. They build relationships quickly which is crucial on fast paced projects. Vertec's positivity has made a huge difference along with their ability to respond to any request we have, their Quality has been superb & we look forward to continuing the working relationship in the future.'
